DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Species A (Figs. 1-2, and 3A-3F); claims 1-19,21-24,26-35,37-51, and 53-57 in the reply filed on 8/30/2005 is acknowledged.
2. Claims 1,27 and 43 are generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 20,25,36 and 52, directed to the species of Figs. 4 and 5A-5D no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

Allowable Subject Matter

3. Claims 1-57 are allowed.
4. The following is an examiner's statement of reasons for allowance: the prior art fails to disclose or render obvious a device for packaging at least one product in combination with the other claimed limitations of claim 1:

"wherein the device is configured so that the fluid pressurization is applied to the at least one component in at least two opposing directions so as to cause a reduction in volume of the at least one component and at least partial opening of the passage".

The prior art fails to disclose or render obvious a device for extemporaneous mixing of at least two products in combination with the other claimed limitations of claim 27:

"wherein the device is configured so that the first separating component, when moved from the first position to the second position, is displaced toward the one of the

first compartment and the second compartment in which the pressurization is generated”.

Further, the prior art fails to disclose or render obvious a device for packaging at least one product in combination with the other claimed limitations of claim 43:

“wherein the device is configured so that at least one dimension of the component becomes reduced in response to pressurization generated by the pressurization portion so as to enable movement of the component from a first position located in the passage to a second position located remote from the passage and the compartment”.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
